

RENEGADE WARRIOR

Through the misty dreams – of forgotten memories
I feel the pain so clearly now – it brings me to my knees
And time keeps on rolling – dragging me along
I've got to make full circle now- I've got too make it home

**I'm just a renegade warrior – fighting on the line
I've got a dream now – that one day I will find
Just what I'm fighting for – when the battle's done
I keep on moving forward – I've got you on the run**

Just a renegade warrior – sword and shield in hand
Movin' through the darkness now – the night at my command
I wake up to the sunrise – the cloak of night is gone
But the sword of survival – you know will lead me on

**'Cause I'm a renegade warrior – fighting on the line
I've got a dream now – that one day I will find
Just what I'm fighting for – when the battle's done
I keep on moving forward – I've got you on the run**

You know it's all the same now – lonely, cold and cruel
Just a renegade warrior – slaying all the rules
But you know I'm grasping – to the strength that leads me on
Yeah! I've got a destiny – it's one I call my own

**'Cause I'm a renegade warrior – fighting on the line
And I've got a dream now – that one day I will find
Just what I'm fighting for – when the battle's done
I keep on moving forward – I've got you on the run**
