1. Describe your organization's (and subrecipient(s) if applicable) experience in effectively utilizing Federal funds and performing the activities proposed in the application.

Goodwill Horizon House has more than two decades of experience serving individuals and families experiencing homelessness and has successfully administered federal, state, and local funding to provide housing-focused services, street outreach, case management, employment support, and permanent housing placements. The agency currently manages Community Development Block Grant (CDBG) and Emergency Solutions Grant (ESG) contracts to provide Street Outreach services in collaboration with HIP and Adult & Child Health. Horizon House has also successfully implemented ESG-funded outreach and case management services continuously since 2008. Between 2009 and 2012, Horizon House administered $500,000 in Homeless Prevention Rapid-Rehousing Program (HPRP) funding and was awarded additional reallocated funds on two occasions due to strong performance and successful outcomes.

Goodwill Horizon House has extensive experience serving individuals with complex barriers to housing stability, including chronic homelessness, behavioral health conditions, substance use disorders, physical disabilities, justice system involvement, and limited income. Through a comprehensive service model, participants receive housing navigation, case management, benefits enrollment assistance, employment services, healthcare connections, behavioral health referrals, and ongoing housing stabilization support.

In 2017, Goodwill Horizon House was selected by the Continuum of Care to provide housing navigation and supportive services for high-acuity households referred through Coordinated Entry. This initiative expanded in 2020 through ESG-CV funding and continues today through partnerships with the Indianapolis Housing Agency (IHA) and the Housing to Recovery (HTR) program. Under this model, Goodwill Horizon House combines intensive supportive services with housing resources, including Section 8 Homeless Choice Vouchers, to help individuals secure and maintain permanent housing. Since housing its first participant in April 2018, the program has successfully housed more than 200 households and achieved a 92% housing retention rate, demonstrating the agency's effectiveness in reducing returns to homelessness and promoting long-term housing stability.

Goodwill Horizon House recognizes that housing stability is strengthened by economic stability. Employment and income growth are incorporated into individualized service plans, with participants receiving support accessing workforce development services, employment opportunities, mainstream benefits, and financial resources that increase self-sufficiency and long-term housing success.

The agency is deeply committed to incorporating the perspectives of individuals with lived experience into program development and implementation. In 2021, Goodwill Horizon House hired Certified Peer Support Specialists whose lived experience informs service delivery, program planning, and participant engagement strategies. Participant feedback is also gathered through advisory groups, surveys, comment boxes, grievance procedures, and ongoing client interactions. Input from participants and peer staff is regularly reviewed by leadership and program teams to improve services, remove barriers, and ensure programs remain responsive to the needs of the community.

2. Describe your organization's (and subrecipient(s) if applicable) experience in leveraging Federal, State, local and private sector funds.

Goodwill Horizon House has extensive experience leveraging federal, state, local, and private funding to support housing stability and services for individuals experiencing homelessness. Since 2018, Goodwill Horizon House has combined Indiana Housing and Community Development Authority (IHCDA) Housing Trust Fund (HTF), Housing to Recovery (HTR) funding, and Housing Choice Vouchers (HCVs) through the Indianapolis Housing Agency (IHA) to create permanent supportive housing for highly vulnerable households. This partnership currently supports more than 120 households and leverages over $1 million annually in rental subsidies.

The agency has administered Emergency Solutions Grant (ESG), including ESG-CV1 and ESG-CV2 contracts, providing housing stabilization, rental assistance, street outreach, and supportive services to more than 100 households. Participants are routinely transitioned between funding sources to maintain housing and services.

Goodwill Horizon House also manages Community Development Block Grant (CDBG) and ESG-funded Street Outreach programs in partnership with HIP and Adult & Child Health. The agency previously administered Homelessness Prevention and Rapid Re-Housing Program (HPRP) funding and received additional federal allocations based on strong outcomes.

Private and philanthropic funds further address needs not covered by public funding. Examples include a $50,000 foundation grant, faith-based support for flexible “barrier buster” assistance, and grants for move-in kits and household essentials.

Goodwill Horizon House has also secured Substance Abuse and Mental Health Services Administration (SAMHSA) funding to strengthen behavioral health services for individuals experiencing homelessness. By braiding federal, state, local, and private resources, the agency fills service gaps and creates pathways to housing stability and long-term self-sufficiency.

3. Describe your organization’s (and subrecipient(s) if applicable) financial management structure.

Goodwill of Central & Southern Indiana (Goodwill), part of the Goodwill Legacy Group, is a nonprofit 501(c)(3) organization governed by a volunteer Board of Directors that provides strategic and fiduciary oversight. An experienced executive leadership team oversees operations, program implementation, compliance, and financial management across workforce development, education, health, and other mission services.

The proposed project will be administered through Goodwill's established grants management structure. The Goodwill Foundation team oversees grant compliance, reporting, outcome tracking, and funder communication. Program leadership manages daily operations and partner coordination, while Finance staff oversee budgeting, invoicing, financial reporting, internal controls, and audit compliance.

Goodwill maintains a financial management system compliant with Generally Accepted Accounting Principles, Uniform Guidance (2 CFR Part 200), and applicable federal and state requirements. Financial activity is tracked by fund, program, and grant through grant-specific cost centers, ensuring accurate allocation and reporting of expenditures. Program and finance staff regularly review budgets and spending to ensure alignment with project goals.

Internal coordination occurs through collaboration among program, grants, finance, and executive leadership teams. External coordination occurs through partnerships with healthcare providers, housing organizations, educational institutions, workforce agencies, and community organizations.

If partners receive grant funds or provide contracted services, written agreements will outline responsibilities, deliverables, reporting requirements, and compliance expectations. Goodwill conducts annual independent financial audits and maintains strong internal controls and financial monitoring practices to ensure responsible stewardship of grant funds.

4. Are there any unresolved HUD monitoring or OIG audit findings for any HUD grants (including ESG) under your organization?	No

3B. Project Description

1. Provide a description that addresses the entire scope of the proposed project.

St. George Bridge Housing Program serves adults who are experiencing homelessness and who have been referred through Coordinated Entry. The program primarily serves individuals with disabling conditions, including physical disabilities, developmental disabilities, chronic health conditions, and behavioral health needs. The program also serves individuals fleeing domestic violence, dating violence, stalking, or human trafficking, as referred through Coordinated Entry. The program is located at 2101 Boulevard Place in Indianapolis and consists of 48 efficiency apartment units. Program participants must reside in this building while receiving assistance and are required to comply with the terms of the program occupancy agreement. St. George provides temporary housing while participants work towards obtaining permanent housing with the assistance of their on-site case manager. St. George provides structured bridge housing and intensive supportive services that help participants stabilize, address barriers to housing, increase income and benefits, gain employment, and successfully transition to permanent housing.. The program addresses identified community needs by offering housing combined with intensive case management services, with a case management ratio of no more than 15:1. Staff work closely with residents to create individualized housing plans, connect to income and benefits, address barriers to housing stability, and secure permanent housing as quickly as possible. On-site supportive services include case management, housing navigation, transportation assistance, connection to employment resources, referrals to physical and behavioral health providers, benefits enrollment, life skills assistance, on-site food and clothing pantries, and crisis intervention. Staff also provide safety planning and enhanced support for participants with complex needs. Residents have access to an after-hours on call case manager who can provide support for emergencies that occur on weekends and after-hours. St. George coordinates closely with a variety of health, housing, and service partners. The program works collaboratively with street outreach teams to ensure that individuals who have been referred are quickly found and transported to the program with a warm handoff. St. George regularly coordinates with permanent supportive housing providers to facilitate rapid placement into permanent housing. To ensure that participants have access to medical care, behavioral health care, food, and other basic needs, the program has strong partnerships with organizations like Eskenazi Hospital, Sandra Eskenazi Mental Health Center, Second Helpings, Gleaners Food Bank, IU Health Nutrition Hub, and Mercy Road Church. St. George is designed to serve individuals who require a higher level of support before successfully transitioning to permanent housing. Through individualized support services, participants work towards housing stability, income growth, recovery goals, connection to healthcare and behavioral health services, employment, and overall increased self-sufficiency. Staff provide individual and group programming, including coordination with other local service providers, to ensure a successful transition to permanent housing and independence. Expected outcomes include successful exits to permanent housing, increased income for participants who are able to work, increased connection to mainstream benefits, and minimal returns to homelessness.

4A. Supportive Services for Participants

1a. What prior experience does the applicant have operating transitional housing or other projects that have successfully helped homeless individuals and families exit homelessness within 24 months or has a plan in place to ensure homeless individuals and families will exit homelessness within 24 months?

Goodwill has extensive experience helping individuals experiencing homelessness and housing instability achieve self-sufficiency through employment, education, workforce training, and supportive services. The organization serves approximately 15,000 individuals daily through career coaching, job readiness training, credential attainment, high school completion, job placement, retention, and barrier-removal supports designed to increase earned income and reduce reliance on public assistance. To support placement into non-subsidized housing, Goodwill utilizes a Housing First and trauma-informed approach that prioritizes participant choice, dignity, and stability while addressing barriers to employment and economic mobility. Participants receive individualized assessments and service plans connecting housing goals with employment, education, financial coaching, and supportive services. Case managers identify pathways aligned with participants' interests, skills, and local workforce opportunities. Through GoodwillNext, TalentSource Career Coaching, skilled trades training, Per Scholas, and other workforce initiatives, participants earn industry-recognized credentials and access employment opportunities offering family-sustaining wages. Goodwill maintains employer partnerships across healthcare, logistics, manufacturing, technology, transportation, and skilled trades, creating pathways to employment and advancement. Goodwill also provides wraparound supports including transportation assistance, work clothing, technology access, financial assistance, benefits navigation, and community referrals. Staff use strengths-based coaching, motivational interviewing, and participant-centered case management to minimize trauma and support long-term success. Through coordinated employment services, income growth strategies, and housing partnerships, Goodwill helps individuals obtain and maintain permanent housing and achieve lasting self-sufficiency.

1b. The applicant has previously operated or currently operates transitional housing or another homelessness project, or has a plan in place to ensure that at least 50 percent of participants exit to a positive destination within 24 months and at least 50 percent of participants exit with employment income as reflected in HMIS or another data system used by the applicant.

Horizon House has extensive experience providing housing and supportive services to individuals experiencing homelessness. Since opening St. George in April of 2024, the program has served 167 individuals experiencing homelessness and housing instability. The project provides temporary housing combined with intensive case management focused on helping participants obtain and maintain permanent housing. Horizon House has been in existence for over 35 years and has a long history of operating housing programs for individuals with complex service needs, including permanent supportive housing, rapid rehousing, street outreach, and bridge housing. Horizon House staff have expertise in housing navigation, case management, benefits acquisition, employment support, landlord engagement, and connections to community-based services. Staff use a housing-focused, participant-centered approach that prioritizes stability, self-sufficiency, and successful transitions to permanent housing. The project has demonstrated strong outcomes. Since program inception, 90% of exits have been to permanent housing destinations. Remaining exits were primarily to hospitalization, staying with family or friends, or death. Fewer than 3% of participants exited unsuccessfully due to violations of program rules resulting in a return to homelessness. These outcomes demonstrate the program's ability to help participants achieve housing stability while also preventing unnecessary program termination. The program is designed to prevent participants from being terminated whenever possible. Staff address concerns early, work with participants to solve problems, connect participants to appropriate services, and use progressive interventions before considering exit. When issues arise related to behavior, safety, substance use, mental health symptoms, or conflict with others, staff focus on stabilization and continued engagement rather than immediate termination. This approach has helped the program maintain a very low rate of negative exits. St. George regularly works with Eskenazi Health, including the Eskenazi Blue Team, a community-based behavioral health program that supports people with serious mental illness and complex service needs. St. George also connects participants to crisis response entities like MCAT when participants experience behavioral health, substance use, overdose, or other crisis needs. MCAT provides mobile crisis response and helps connect people to appropriate services. Employment and income supports are also a large part of the service strategy. Through Goodwill's extensive network of employment services, participants can be connected to job readiness programs, job search assistance, and employment opportunities for people with barriers to work. RDOOR, as the housing operator, has years of experience in affordable housing operations and property management for underserved populations. As the housing operator, RDOOR will support safe, stable, and well-maintained housing. Horizon House will provide the supportive services needed to help participants remain engaged, address barriers, and move successfully into permanent housing. After participants exit St. George, staff follow up with them within 60 to 90 days after exit to assess housing stability, identify any new needs, and reconnect participants to services if needed. This follow-up process supports continued stability after exit and helps the program identify trends that may improve the

1c. Demonstrate that the project will provide and/or partner with other organizations to provide eligible supportive services that are necessary to assist program participants to obtain and maintain housing (i.e., case management, behavioral healthcare, employment training, etc.)

St. George uses an intensive, housing-focused case management designed to help participants stabilize, increase self-sufficiency, and move into permanent housing as quickly as possible. The case management ratio will be no more than 15 participants to 1 case manager. At full occupancy, this requires 3 case managers and 1 on-site supervisor, supported by Goodwill Horizon House leadership.
Case managers will meet with participants for a minimum one scheduled meeting a week, but typically more regularly and will provide both scheduled and unscheduled support based on participant need. Services will begin at intake with an assessment of housing history, income, benefits, employment, health, behavioral health, substance use history, legal needs, documentation needs, and any barriers to permanent housing. Each participant will have an individualized service plan that identifies goals, services to be provided, frequency of services, identified providers, and target dates for progress. The case management approach is participant-centered, trauma-informed, and focused on stability as well as acquiring permanent housing. Staff will use relationship building, motivational interviewing, problem solving, and persistent engagement to support participants who may not traditionally engage with services. Because St. George services individuals with complex needs, staff will focus on early intervention and stabilization. When concerns arise related to mental health symptoms, substance use, conflict, missed appointments, or program expectations, case managers will work with participants to identify solutions before termination is considered. The goal is to maintain engagement, avoid negative exits, and support successful move on to permanent housing.
The staffing model will also include coordination with RDOR as the housing operator. RDOOR will support property operations and building management, while Goodwill Horizon House will provide supportive services. Case managers will coordinate with RDOOR staff to address participant needs, safety concerns, unit issues, and housing stability concerns. Participants will also have access to the after-hours case manager on call for urgent needs. This model ensures that participants receive consistent, individualized support while living at St. George and are connected to the resources needed to successfully exit to permanent housing.

2. How will this project be supplemented with resources from other public or private sources, that may include mainstream health, social, and employment programs such as Medicare, Medicaid, SSI, and SNAP.

St. George case managers will create an individualized service plan for each resident that identifies goals, barriers, and connections to mainstream health, social service, income, and employment programs. Case managers will assess eligibility for Medicaid/Medicare, SNAP, SSI/SSDI, VA benefits, healthcare, transportation, employment services, and permanent housing resources. Service plans will identify goals, providers, frequency of participation, and progress milestones and will be documented in HMIS. Goodwill Horizon House will directly provide case management, benefits navigation, document acquisition assistance, housing search support, coordination with external providers, and discharge planning. Case managers will maintain regular contact with partner agencies to coordinate services, monitor participation, and address barriers that may impact progress. To meet the 40-hour engagement requirement, each resident will have a weekly schedule that combines St. George services with partner-delivered activities. Eligible activities may include employment, job search, job training, education, volunteering, substance use treatment and recovery services, physical and behavioral healthcare appointments, housing search activities, life-skills development, and community-building opportunities. Employment hours will count toward the weekly requirement.
The project will leverage strong partnerships with Eskenazi Health, IU Health, and Gennesaret Health Services for primary and preventive healthcare; Sandra Eskenazi Mental Health Center and Adult & Child Health for behavioral health and substance use services; and Goodwill's workforce development programs and employer network for employment, training, and education opportunities. Through coordinated service planning and ongoing communication with providers, residents will receive comprehensive support that promotes housing stability, improved health, increased income, and successful transition to permanent housing.

3. TH Service Requirements

3a. How will this projects assess the service needs of program participants?

Case Managers (CM) will conduct an initial and annual assessment of each program participant's supportive service needs to ensure that services remain responsive to the participant's circumstances, housing goals, and progress toward self-sufficiency. At enrollment, CMs will complete a comprehensive assessment addressing housing history and stability, employment and education, income and benefits, physical and behavioral health, substance use, transportation, childcare, life skills, legal needs, and other barriers that may affect the participant's ability to obtain and maintain permanent housing. While this information will not be shared right off the bat, this assessment period will last for 3 months in a focused manor and will be ongoing throughout the partnership between the CM and the client.
The assessment will be reviewed at least annually and updated whenever there is a significant change in the client's circumstances or housing status. Staff will use the assessment results to develop and update an individualized service plan with the client. Progress toward goals will be documented through case management contacts, service referrals, participant follow-up, and housing outcomes. This ongoing assessment process will allow the CM to identify emerging needs, adjust services, make appropriate referrals, and ensure that resources are focused on the interventions most likely to support housing stability and increased self-sufficiency.

3b. Describe how this project will provide individualized services for program participants during their time in Transitional Housing that will result in at least 20 hours per week of engagement in services, activities or employment for all program participants, except for a program participant over age 62 or who is an individual with handicaps as defined in 24 CFR 8.3 or a with a developmental disability as defined under 24 CFR 578.3?

(examples of services or activities include case management, counseling, treatment, volunteering, work therapy, education, job training, community-building activities, etc.) Employment may contribute to the 20 hours per week of engagement. The project description provided here does not constitute a reporting or documentation requirement.

Each participant will work with their case manager to develop an individualized service plan designed to support at least 20 hours per week of engagement in services, activities, employment, education, treatment, or other approved activities. The service plan will be developed during or near intake and updated regularly based on the participant's goals, barriers, health needs, employment status, and progress towards permanent housing. Case managers will work with each participant to create a weekly engagement schedule. The schedule will identify the services or activities to be completed, how often they occur, who will provide them, and how each activity supports the participant's goals. For example, one participant may complete case management, housing search, employment services, and recovery support, while another may focus on benefits, mental health treatment, and life skills. Horizon House will directly provide case management, housing planning, benefits support, transportation coordination, employment referrals, life skills support, and connection to permanent housing resources. Participants will also be connected to Goodwill employment programs, behavioral health providers, primary healthcare providers, substance use treatment, and other community-based services. For participants who are employed, work hours will count towards the weekly engagement requirement. Case managers will adjust the service plan accordingly. They will continue to receive support focused on job retention, budgeting, housing search, and transition to permanent housing. For participants who meet NOFO requirements for reduced engagement, like participants over the age of 62, participants with qualifying disabilities, or participants with developmental disabilities, the service plan will be adjusted based on the individual's capacity and need. Staff will document the reason for the reduced schedule and continue to provide appropriate services.

VAWA Budget

VAWA Budget

The Violence Against Women Act (VAWA) has clarified the use of CoC Program funds for VAWA eligible cost categories. These VAWA cost categories can be added to a new project application to create a CoC VAWA Budget Line Item (BLI) in e-snaps and eLOCCS. The new BLI will be added to grant agreements and utilized the same as other CoC Program BLIs in e-snaps and eLOCCS. Eligible CoC VAWA costs can be identified in one or both of the following CoC VAWA categories. Examples of eligible costs in these cost categories are identified as follows:

A. VAWA Emergency Transfer Facilitation. Examples of eligible costs include the costs of assessing, coordinating, approving, denying, and implementing a survivor's emergency transfer(s). Additional details of eligible costs include:
- Moving Costs. Assistance with reasonable moving costs to move survivors for an emergency transfer(s).
